

RTS will take part in two new projects for IMIA 2019

Madrid, 11th September 2018. *The 51st International Conference of the International Association of Engineering Insurers (IMIA) was recently held in Singapore and attended by **Luis Pérez Firmat, a specialist from RTS International Loss Adjusters.***

During the conference, which gathered together over 100 participants representing 25 nationalities, RTS participated in several debates and round tables. Three RTS specialists will also form part of the working groups that will present their results at the 2019 conference in Vienna.

Sancho Azevedo, the firm's general manager of Portugal and Brazil, and Álvaro Jaureguizar, civil engineer and RTS member at the Miami office, will work together in the IMIA Working Group 'Cover for existing property'.

Luis Pérez Firmat will contribute to the 'Construction to operational insurance' project. The topics to be worked on this year were decided during the conference and will be reported on at the next.

IMIA is a network of engineering insurance experts from around the world who share experiences, research and debates on a variety of engineering insurance subjects.

About RTS International Loss Adjusters

We are an international business group founded in 1989 with our own offices in Spain, Latin America and Portugal. Since our beginnings, our business has focused on adjusting losses in industrial risks and all types of technical sectors.
